

Athlon Car Lease

Athlon Car Lease is a strong and distinctive leasing company. Besides developing sustainable products and clean mobility solutions, we want to inspire our environment to take up sustainable solutions. Above all, quality, customer satisfaction and regional commitment is of paramount importance to us.

Regional, national and international

Athlon Car Lease is a division of De Lage Landen International, a 100% subsidiary of the Rabobank. Our head office is established in Almere. The back-office activities and services for our major clients are based there. Our five offices in Heerenveen, Alkmaar, Berkel en Rodenrijs, Nieuwegein and Eindhoven provide services in the region. Athlon Car Lease operates internationally from offices in Germany, Belgium, Luxembourg, France, Poland, Italy, Portugal and Spain. And by working closely with Fleet Synergy International we can offer leasing in other countries.

Lease a vehicle

Operational Lease is one of the services provided by Athlon Car Lease. You lease a vehicle that has everything you need. The leasing contract includes maintenance, repairs, tyres, claims handling and the administrative processing of the lease. You lease the vehicle and we make sure you have no bother. It's care-free leasing.

Lease a used vehicle

Leasing vehicles which have been returned to us early become available for a new leasing contract. And you can benefit from this. Because you would be leasing a reliable and highly presentable vehicle which is immediately available at a favourable price. There is a range of used vehicles on www.athloncarlease.nl which we can offer you with a new leasing contract.

Rent a vehicle

Our own hire fleet will provide you with a perfect solution when you are looking for flexible mobility. Athlon Car Lease Rental Services has a fully equipped and modern fleet of vehicles and commercial vehicles. You will be hiring a vehicle that includes an extensive insurance package and a national and international 24 hour emergency service. The rental vehicle can be standing outside your door within 4 hours at any address in the Netherlands.

Buy a vehicle

Would you like to buy a leasing vehicle? Then you should apply to the Athlon Car Lease Occasioncentre. There are many advantages to buying former leasing vehicles. The vehicles have a guaranteed first owner, are well maintained, and the maintenance history is known. And equally important, we offer it to you at an attractive price. You also have the option of a 6 month BOVAG guarantee. You will find information about our range of ex-lease vehicles at www.occasioncentre.nl.

Sustainable products

Our mission is 'to sustain mobility'. This means we are always on the outlook for sustainable and clean mobility solutions. We have developed the Sustainable Mobility Plan that contains a number of products and services to make it easy for you to maintain a sustainable fleet.

A flexible workplace: do your lease drivers spend hours in tailbacks every day? Or are they forced to leave early in the morning and go home late to avoid congestion? Athlon Car Lease has a good solution that will save time and money for your lease drivers, as well as reduce environmental pollution. You can now use the Regus Gold Card on very favourable terms.

NS Business Card: your employees will prefer to choose the best transport solution for each destination. Sometimes it could be the leasing vehicle, and at other times a train or taxi. Athlon Car Lease offers you the NS Business Card. Your employees can use this to travel more efficiently and sustainably.

Mobile secretary: do your employees spend a lot of time behind the wheel? Athlon Car Lease will help you make the journey times of your lease drivers more productive by means of Eileen, the mobile secretary.

Athlon Carpool Online: Athlon Car Lease provides an online forum that organises multi-company carpooling on www.athloncarpoolonline.nl. Employers and their employees can consult Athlon Carpool Online to see who are travelling the same routes and to make mutual arrangements about vehicle pooling.

Athlon Green Car Solution: employees without a leasing vehicle can now lease a super efficient vehicle at a low price. On the condition that the employee sells their less energy-efficient private vehicle that is used for commuting. This helps companies to reduce considerably the total CO₂ footprint of their organisation.

Save Lease: you will finally get to grips with fuel costs with Save Lease. Save Lease is a motivation programme for lease drivers enabling our clients to save up to 15% on fuel costs and by which we can also reduce the CO₂ emissions.

Online products

Athlon Car Lease offers you a number of internet applications to support you with the management of your fleet.

Athlonline is the online calculation system for our fleet managers and lease drivers. Athlonline manages the whole process from quotation and calculation to your order. Applying the rules of your vehicle policy, you can use your own search criteria to find a suitable leasing vehicle, then calculate the latest lease price and order the vehicle straight away. Athlonline will save you lots of time and trouble in the management of your fleet.

Autofocus will keep you informed about your entire fleet. You can see the status of your current lease and hire vehicles, and find information about your contracts. Autofocus provides reports on your fleet, a summary of potential cost savings per vehicle or category and you can see where variations occur under or above the level of standards you have set. The up-to-date answer to any query is only a few clicks away.

Our website www.athloncarlease.nl has a number of useful online tools available for you. For instance, the internet application Service Track shows all the service garages which we have on contract and where we regularly monitor quality, lease driver satisfaction and reliability. Lease drivers can also find out where refuelling is the cheapest and which fuel is more economical, diesel or petrol.
