

Athlon Short Lease

Would you like to lease a new vehicle for a short period of time? Would you like the vehicle to be available on short notice for your employee? In that case Athlon Short Lease may be interesting to you. An Athlon Short Lease agreement lies somewhere between a rental agreement and a leasing contract. With Athlon Short Lease, you can choose for a lease agreement for just one year.

The advantages

The Athlon Short Lease ensures that the mobility requirements of employees working on a temporary or project basis of one year, are met quickly and easily. Athlon Car Lease makes sure that you can offer them a lease vehicle on short notice, based on their wishes, but within your leasing regulations.

- Short Leasing contract for a one-year period
- Ideal for employees in a trial period, or with a short contract
- Less expensive than renting
- Always a new vehicle
- Monthly invoicing is always sent afterwards
- Vehicle choice also includes energy efficient models from the 14% taxable amount class

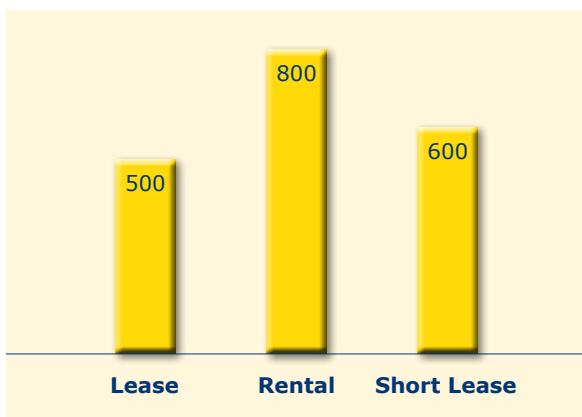

Complete range of new vehicles

Athlon Car Lease has a representative fleet and can ensure that the driver of a Short Lease vehicle always drives in a new vehicle. Drivers can make their own choice from the entire selection of vehicles, in consultation with you. The current selection of vehicles can be found at www.athloncarlease.nl under Products & Services. Of course we also offer a selection of more energy-efficient models from the 14% to 20% taxable amount class as well.

Attractive rates for a short lease

The Athlon Short Lease monthly rates are slightly lower than the rental rates, but are higher than the traditional leasing contract rates. A lease contract is signed for a period of 3 to 5 years, which translates into a lower monthly rate. A rental vehicle gives you the freedom to return the vehicle when you wish. However, if you rent for a longer period of time, it does become relatively more expensive. The Athlon Short Lease offers a one-year contract, and below we provide an overview of how the prices compare with rental and with an operational lease.

Example amounts

You pay a fixed amount per month which includes:

- Interest and amortisation
- Relief vehicle in the Netherlands in cases of repair and damage
- Road tax
- Insurance
- Repairs, maintenance and tyres
- 36,500 kilometres per year

In cases of non-recoverable damage, you will be charged € 136. Using the Athlon Car Lease Damage Meter, you can assess damage yourself to see whether the damage falls under the category 'usage damage' or not. This helps to avoid any surprises. Usage damages are small, acceptable damages to the vehicle caused despite careful handling by the lease vehicle driver. Naturally, you will not be charged for usage damages.

Extra service

Athlon Short Lease offers you extra services:

- Free pick-up and drop-off service throughout the Netherlands, Monday to Friday from 8 am to 8 pm.
- No fill-up costs

Extra options and accessories

Naturally, you have the option to choose from a number of options and accessories:

- Car kit € 20.00 per month
- Navigation € 15.00 per month
- Tow bar € 30.00 per month
- Winter tyres € 175.00 (one-time cost)
