

NS-Business Card

Your employees like to choose the best transport solution for each destination. Sometimes that means travelling by (lease) car, other times by train or taxi. Athlon Car Lease now offers the NS-Business Card. This allows your employees to travel more efficiently and more sustainably.

Custom-made mobility

Their vehicle brings your employee wherever they want to be. But during rush hour this may take a lot longer. You'd like to offer them an alternative means of transport. This will save you time and money. With the NS-Business Card, your employees can take the train whenever it suits them. This can help them to get to their destination in less time in case of, for example, traffic jams.

The NS-Business Card therefore is a perfect combination with the lease vehicle. Moreover, Athlon Car Lease manages the administrative handling and integrates the costs with the leasing invoice. Sustainable travel made simple.

From door to door

With the NS-Business Card, your employees can book and pay for their business travel from door to door. They have one card for travelling by train and (train) taxi, renting an OV bicycle and for entry into parking lots and garages at NS train stations.

Additionally, the NS-Business Card offers:

- Access to the NS High-speed Lounges
- Discounts on meeting locations close to railway stations
- 20% discount on all train travel in off-peak hours
- 10% discount on all taxi rides
- Special rates with the Schiphol taxi service
- A free Greenwheels membership
- No extra charge for travel on domestic routes on ICE International trains

How does it work?

The NS-Business Card is a valid travel document, provided that the journey is booked in advance. This can be done by phone on 0900 204 20 00 or online at www.nsbusinesscard.nl. The card holder uses the card's PIN code, which can be changed by the user. Trip changes or cancellations can be made the same way. At parking lots the card also provides automatic access to the site.

Sustainable and accessible

The NS-Business Card fits well into a sustainable business strategy. One kilometre travelled by train produces one third of the CO₂ emitted by one kilometre of travel by car. If all your employees choose for alternative transport when possible, this would reduce CO₂ emissions and emission of particulates. In our CO₂ reduction report, we can show you how many car kilometres were converted into rail travel by your organisation. This immediately shows how much you contribute to decreasing emissions. Converting part of your vehicle mileage to train mileage will also lead to a clearly noticeable reduction in traffic jams. Your employees can travel more efficiently and effectively.

All your mobility in one invoice

Athlon Car Lease manages the application for NS-Business Cards, all the administration, and the CO₂ reduction report. The actual travel costs incurred by your employees (for train, taxi etc.) will be invoiced to you. The invoicing will be integrated into the costs of the lease vehicle. You receive one invoice for all your mobility costs. This provides you with a total cost overview at a glance. The NS-Business Card, including the corresponding administration and reports, will cost € 2.50 per month for your employees.

More information and application

Would you like more information, or would you like to apply for an NS-Business Card? Please contact your account manager. Purchase of the NS-Business Card requires a minimum of five applications. Each card is issued with the name of the employee. For more information on the NS-Business Card, please visit our website www.athloncarlease.nl, under Products and Services.
